PROFESSIONAL SUMMARY

Results driven Full Stack Software Developer with proven experience architecting, deploying, and maintaining live MERN stack web applications and production SaaS products in the UAE market. Expert in building scalable RESTful APIs, optimizing frontend asset pipelines, and implementing secure database architectures. Highly skilled at taking projects completely from initial concept to cloud deployment independently under commercial enterprise licensing. Fully authorized to work locally in the United Arab Emirates.

TECHNICAL SKILLS

- **Frontend Development:** React.js, Vite, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3, Responsive Web Design.
- **Backend Development:** Node.js, Express.js, RESTful API Design, Middleware Architecture, Error Handling, Nodemailer
- **Database Management:** MongoDB Atlas, Mongoose ODM, Data Schema Architecture, State Persistence.
- **Tools & Deployment:** Netlify CDNs, Render Cloud Containers, GIT, GitHub Version Control, PowerShell Terminal.
- **Security & Protocols:** Cross-Origin Resource Sharing (CORS) preflight mapping, Helmet Security Configurations, API Security.

PROFESSIONAL EXPERIENCE

Abu Turab Al Khamsa Najoom Trading / Nu Ventures LLC | Dubai, UAE
Full Stack Software Developer (Freelance Consultant) |

April 2025 – Present

Live Production Platform <https://sahilapp.netlify.app/register>

API Documentation: <https://sahil-app-backend.onrender.com>

- Architect and operate independent full-stack B2C software products within a licensed corporate trading infrastructure, managing complete end-to-end software deployment lifecycles.
 - Engineered and launched "**Sahil App**," a production grade full stack group expense splitting SaaS platform architected for a global user base, successfully deploying features optimized for expat and traveler communities across India, the UAE, and the wider GCC region.
 - Optimized frontend build pipelines using Vite, drastically reducing client bundle sizes and implementing automated Netlify Edge CDN deployments for accelerated global load speeds.
 - Resolved complex cross domain transmission bottlenecks by configuring robust Express/Node.js CORS middleware arrays and Helmet security layers to ensure secure data handling.
 - Designed asynchronous database query architectures using Mongoose ODM to handle multi user balance computations in real time with reliable data state persistence on MongoDB Atlas.
 - Developed a frictionless manual wallet verification panel featuring dynamic multi currency workflows (supporting Wio Bank workflows in the UAE and GPay QR banking networks in India) to smoothly align the product architecture with distinct cross border digital payment systems.
-

Live Production Platform <https://mathsphereacademy.netlify.app>

API Documentation: <https://mathsphere-academy.onrender.com>

- Built and deployed an enterprise facing educational platform enabling prospective students to browse live course listings and book real time demo classes online.
- Engineered a responsive web landing page featuring interactive contact forms, modular navigation components, and fluid cross device UI rendering using Tailwind CSS and JavaScript.
- Developed a Node.js and Express.js backend architecture to handle public incoming student data inquiries via secure, structured REST APIs
- Integrated **Nodemailer** workflows to build an automated email notification subsystem, delivering instant registration and inquiry updates directly to system administrators.
- Created a secure administrative control dashboard displaying dynamic tables to efficiently manage, track, and filter historical demo class bookings.
- Established a secure, continuous integration and deployment (CI/CD) strategy utilizing Netlify for frontend hosting and Render for automated, zero-downtime backend updates

EDUCATION & COMMERCIAL STATUS

- **Commercial Authorization:** Fully licensed commercial operator in the United Arab Emirates under Abu Turab Al Khamsa Najoom Trading LLC.
- **Bachelor of Arts in English** | Mewa Degree College.
- **Bachelor of Arts in Hindi** | Mysore University.
- **Web Development Professional Certification** | Apponix Academy

CORE STRENGTHS & LANGUAGES

Core Competencies: End to End Solo Project Execution, Client Collaboration, Custom API Development, System Debugging, Technical Documentation

Languages: English (Fluent), Hindi (Fluent), Kannada (Advanced)
