PROFESSIONAL SUMMARY

Results-driven Full Stack Software Developer with a strong foundation in building and deploying responsive web applications using the MERN stack (React, Node.js, Express, MongoDB). Proven ability to deliver independent digital solutions under local commercial enterprise licensing for the UAE market. Technically proficient in managing end-to-end frontend/backend project cycles, writing clean RESTful APIs, and resolving cross-domain security parameters (CORS/Helmet). Fully authorized to work locally in the UAE.

TECHNICAL SKILLS

- **Frontend Development:** React.js, Vite, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3, Responsive Web Design
- **Backend Development:** Node.js, Express.js, RESTful API Design, Middleware Architecture, Error Handling Logic
- **Database Management:** MongoDB Atlas, Mongoose ODM, Data Schema Design, State Persistence
- **Tools & Deployment:** Netlify CDNs, Render Cloud Containers, GitHub Version Control, PowerShell Terminal
- **Security & Protocols:** Cross-Origin Resource Sharing (CORS) preflight mapping, Helmet Security Configurations

PROFESSIONAL EXPERIENCE

Abu Turab Al Khamsa Najoom Trading / Nu Ventures LLC | Dubai, UAE

Full Stack Software Developer (Freelance Consultant) |

April 2025 – Present

- Architect and operate independent full-stack B2C software products within a licensed corporate trading infrastructure, managing complete end-to-end software deployment lifecycles.
- Engineered and launched Sahil App, a production-grade full-stack group expense-splitting SaaS platform built to serve expat and traveler communities across the GCC.
- Configured a customized Vite relative-base asset distribution mapping (base: './'), successfully compiling and packaging over 1,770 structural modules into ultra-lightweight client bundles hosted on Netlify Edge CDNs.
- Overcame cross-domain transmission blocks by architecting custom Express/Node.js CORS preflight request matrices and matching Helmet security policies, enabling authenticated data transfers across independent cloud clusters.
- Designed asynchronous database query controllers with Mongoose ODM to synchronize real-time multi-user ledger computations directly to MongoDB Atlas cloud environments with low-latency data state persistence.
- Formulated a localized product monetization strategy by engineering a custom, frictionless manual regional wallet verification panel (Wio Bank & GPay QR engine) to align with alternative Middle East banking workflows.

Freelance Technical Solutions Developer | India / Remote

Full Stack Software Developer (Freelance Consultant) |

July 2025 – Oct 2025

- Built and deployed a complete full stack web application **MathSphere Academy**, for a live educational institution enabling students to book demo classes online
- Engineered a responsive landing page with dynamic course listings and interactive contact forms using HTML5, CSS3, and JavaScript
- Developed a Node.js, Express.js backend with REST APIs handling contacts submissions and demo requests
- Implemented an automated email notification system using Node mailer, sending real-time alerts to admins on new requests
- Built an admin dashboard form a engaging student inquiries and tracking demo class bookings
- Established end to end CI/CD pipeline frontend deployed on Netlify, backend on Render, with zero downtime updates

CORE PROJECTS SHOWCASE

Sahil App - Production Group Expense SaaS <https://sahilapp.netlify.app/register>

- **Role:** Solopreneur Founder & Lead Developer
- **Stack:** React.js, Vite 7, Node.js, Express, MongoDB Atlas, Netlify, Render, Tailwind CSS
- **Impact:** Built a zero-ad transactional expense matrix that instantly evaluates shared debt balances and equal splits across group environments.

MathSphere Academy - Full-Stack Educational Platform <https://magnificent-peony-b7d999.netlify.app>

API Documentation: <https://mathsphere-academy.onrender.com/api/contact/contacts>

- **Role:** Full Stack Developer
- **Stack:** JavaScript (ES6), Node.js, Express, RESTful APIs, Node mailer, Netlify, Render
- **Impact:** Developed a multi-tier course management application with public registration paths and live back-office analytics tables.

EDUCATION & CREDENTIALS

WebDevelopment Certification	Apponix Academy, Bangalore · January 2025 – May 2025
BachelorofArts– English	Mewa Degree College May 2012 – Sept 2016
BachelorofArts– Hindi	Mysore University

Advanced Technical Mentorships: Active participant in peer review hubs including Chai aur Code and Namaste Dev technical framework communities.

Commercial Authorization: Fully licensed commercial operator in the United Arab Emirates under Abu Turab Al Khamsa Najoom Trading.

STRENGTHS &LANGUAGES

Core strengths: Client collaboration, Technical Documentation, Debugging, Solo Project Execution, Fast Self Learning, Technology Integration

Languages: English (Fluent) · Hindi (Fluent) · Kannada (Advanced)
